- Roll each quilt tightly around the center cardboard core, (top to bottom for flat quilts, side-to-side for tucks) in the order listed above.

As you finish rolling each quilt, tuck the edge of the next quilt between the roll and the last 6"-8" of the previous quilt.

When you get to the smaller quilts, roll them with the white inner wrapping sheets to keep the roll together

- Wrap the white wooden slats in bubble wrap before placing in the center core. Place all metal rods for these quilts and the other 30" quilts (from tube #7) inside the center core.
- Finally, roll the wrapping sheet around the whole bundle and secure with the fabric ties (bows only please). Slide into the plastic bag, roll the bag, so it will fit into the tube, and slide the whole bundle into the shipping tube.
