Design Concept & Process:

Out of the Blue 2 is one of a series of curved composition studies, in which I am playing with positive and negative spaces, and the juxtaposition of pattern and color. The fabrics were painted with fiber reactive dyes. Out of the Blue#2 was quilted with many different colors of polyester top stitching thread in various organic pattern, and parallel curving lines. This quilt was made as a replacement for Out of the Blue #1, which was damaged in shipment to a buyer. It went to a private collection immediately upon completion, and has not been shown or published elsewhere.
